RE: **Technical Assistance Webinar:** *Utilizing the School Psychology Evaluation Process to Support Effective Service Delivery*

Memo recipients are encouraged to distribute to all administrators responsible for supervising and evaluating school psychologists

The evaluation process linked to a program of school psychological services can be difficult to effectively apply when the role and function of school psychologists is not clearly delineated or understood. Through a review of the professional standards directly linked to the evaluation process for school psychologists, participants will examine ways to meaningfully apply the performance evaluation of these specialized instructional support personnel and consider how this process can support a comprehensive program of school psychological services.
